# GREEN ECONOMY OCCUPATIONS IN ITALY

## Category: Upcycling

**Occupation Title:** Upcycled Goods Entrepreneur

**Description of the Role:** creates and manages a business that transforms waste materials (plastics, textiles, metals, wood) into new products with practical and aesthetic value. This role includes sourcing materials, designing products, overseeing production, and handling marketing and sales. Focused on sustainability and environmental responsibility, the entrepreneur targets eco-conscious consumers with products ranging from furniture and clothing to home decor and accessories.

### Green Skills Required:

- Creatively repurposing waste into valuable products
- Understanding material properties for effective upcycling
- Using hands-on crafting and design techniques
- Launching and managing sustainable businesses
- Budgeting and pricing for profitability
- Branding and promoting eco-friendly products
- Networking with suppliers and partners
- Raising awareness and engaging communities
